ABOUT THE IFSB

The IFSB is an international standard-setting organisation that promotes and enhances the soundness and stability of the Islamic financial services industry by issuing global prudential standards and guiding principles for the industry, broadly defined to include banking, capital markets and insurance sectors. The standards prepared by the IFSB follow a lengthy due process as outlined in its Guidelines and Procedures for the Preparation of Standards/Guidelines, which involves, among others, the issuance of exposure drafts, holding of workshops and where necessary, public hearings. The IFSB also conducts research and coordinates initiatives on industry related issues, as well as organises roundtables, seminars and conferences for regulators and industry stakeholders. Towards this end, the IFSB works closely with relevant international, regional and national organisations, research/educational institutions and market players. Please visit www.ifsb.org for more information.

PREVIOUS IFSB SUMMITS 2004 – 2010

The Annual IFSB Summit is the most important event organised by the IFSB. Held in the month of May, the Summit addresses issues of relevance to the work of the IFSB. The Summit is hosted by a supervisory authority in the respective Summit venue.

Participation in this annual event includes chairpersons, speakers, delegates, sponsors and strategic partners from among the various international inter-governmental organisations, regulatory and supervisory authorities, financial market players and service providers across the globe.
